Understanding Grade Point Average (GPA)

Each letter grade carries a certain number of points.

- A = 4 points
- B = 3 points
- C = 2 points
- D = 1 point
- F = 0 points

How do I calculate my G.P.A.?

1. Add up your Grade Points
2. Divide total Grade Points by the number of classes.

For example:

2 A's = 8

2 B's = 6

2 C's = 4

18 GPA points Divide by 6 classes = 3.0
